

German Roach Clean-Out Prep Sheet

Preparing For The Treatment

- 1. Remove from the kitchen all items from cabinets, pantry, and bathroom.** This includes dishes, silverware, pots, and all food, spices, etc.
- 2. Clean any food on the floors or countertops.** Sweep, vacuum, and wipe down countertops and cabinets before the treatment. This includes behind the refrigerator and stove.
- 3. All counters must be clear.** Do not place dishware or food on counters.
- 4. Remove all pets from your home.** Fish tanks must be covered and unplugged. ***We are not responsible for the well-being of fish left inside the unit.***
- 5. Do not use other bug sprays or pesticides.** Tenants should refrain from using any over-the-counter pesticides in conjunction with professional treatments. Mixing unknown chemicals is hazardous to human and pet health. Sometimes leading to serious injury. This will also void any and all warranties on services provided before application of these over-the-counter products.

Responsibilities After The Treatment

- 1. Wipe down the countertops and inside of the cabinets** before putting dishes and food items back.
- 2. Do not use other bug sprays.** After the treatment, tenant is to refrain from using any over the counter pest control products. This may reduce the effectiveness of the treatment and void The Bug Master warranty.
- 3. Wash all dishes before putting them back into the cabinets. This will ensure that all the bacteria from roach droppings are gone.**

Please allow two weeks for results. You will see a few roaches the days after treatment (this is normal).
